

REMARKS/ARGUMENTS

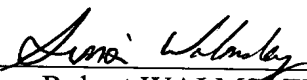

The Applicant has added a new paragraph to page 1 of the specification entitled "Cross reference to related application" in which the continuing data of the present application is updated to provide the Serial Application number of the parent application rather than the Docket number originally provided in the first line of the filed specification. The Applicant submits that this amendment introduces no new matter.

A petition to accept an unintentionally delayed claim under 35 USC 120 is being submitted herewith as the Applicant is unsure whether the original designation of the Docket number of the parent application constituted a proper benefit claim under 35 USC 120 (the Serial Application number of the parent application was not known to the Applicant at the time of filing), and the Applicant did intend to replace the Docket number with the Serial Application number when this became known to the Applicant.

The applicant has deleted the reference to figure 413 in the brief description of drawings, to reflect the previous amendment to the drawings. The Applicant submits that this introduces no new matter.

Very respectfully,

Applicant:

Simon Robert WALMSLEY
